

## SICAM 8 (SICAM A8000 & SICAM S8000) - Complete for Engineers (DEVICE MANAGER) - Virtual Training (RTU-COMDM)

---

### Ziele

---

The participants will be able to configure automation systems of the SICAM 8 (SICAM A8000 & SICAM S8000) product family, using the engineering tool "SICAM Device Manager" including several communication protocols and control tasks (CFC). They will gain consolidated knowledge with theoretical foundations and practical exercises.

### Zielgruppe

---

Engineers who want to create solutions with the SICAM 8 (SICAM A8000 & SICAM S8000) automation system with the engineering tool "SICAM Device Manager".

### Inhalte

---

2 subsequent modules grant the optimal combination of theory and practical applications:

- [SICAM 8 \(SICAM A8000 & SICAM S8000\) - Basic & Engineering \(DEVICE MANAGER\) - \(Virtual Training\) \(3.5 days\)](#)
- [SICAM 8 \(SICAM A8000 & SICAM S8000\) - Logic Editor CFC \(DEVICE MANAGER\) - \(Virtual Training\) \(1.5 days\)](#)

For details please click on the links above.

### Teilnahmevoraussetzung

---

Knowledge of the most important terms of telecontrol technology as trained in the [Telecontrol and Automation - Fundamentals \(TOOLBOX II & DEVICE MANAGER\) - \(Virtual Training\)](#)

### Hinweise

---

This training can be booked as [FACE-TO-FACE Training](#) too.
