

Hands-on workshops voor uw industrie (BE_HOWS)

Short Description

Boost your efficiency with our practical workshops

Objectives

Automate more efficiently? In our practical workshops, you will learn a lot in a short time. Workshops are organized on the SIMATIC S7-1200(F) G2, visualization, Industrial Edge, and digital drives. With six locations in Belgium, you never have to travel many kilometers. Follow our accessible one-day training courses and save a lot of time and money - even more so if you combine two workshops.
