

Online Training: Optimal data usage in manufacturing with Industrial Edge (TIA-EDGEON)

Présentation

Use and analyze the data from your machines and systems. Also ensure that the corresponding software, operating system and cybersecurity are always up-to-date and secure. With Industrial Edge, everything is easier, more flexible, and more secure: Acquire and process data directly and securely at the machine with no latency using your software and a central system for administration, deployment, and updates.

Objectifs

By attending this course, you will learn how to use the advantages of Industrial Edge optimally for your application:

- Flexible and secure mass data processing directly in production.
- Shorter innovation cycles and greater flexibility thanks to central software and operating system updates.
- Reduce the time to market through efficiency-increasing platform functionalities
- Future-proof and low barriers to entry due to the open ecosystem

Groupes cibles

Commissioning engineer
Project planner

Programme / Contenu

Industrial Edge Version 1.1

Introduction to the concept and application of the Industrial Edge Device and Industrial Edge Management System
Commissioning and onboarding of an industrial edge device in the management system in the existing network topology

Order and implementation of Siemens Apps

Perform firmware updates

Implement connectivity to the SPS and cloud using platform functionality

Configuration of different Edge Apps

Implementation of different use cases with available Industrial Edge Apps

Installation of an individual Industrial Edge application

Provision of an own Edge App in the Industrial Edge Management System

The following Industrial Edge Apps are among those used in the course:

- FlowCreator, SIMATIC S7 Connector, Cloud Connector, Data Service, Performance Insight, Machine Insight ...

Prérequis

Basic knowledge in SIMATIC TIA Portal STEP 7 corresponding to the courses TIA-PRO2 or TIA-SYSUP
Basic IT knowledge should be available.

Type

Formation distancielle
