

Learning Membership - SITRAIN access Subscription (ACCESS-P)

Short Description

SITRAIN Access is an online subscription offer accessible 24/7 with wifi. It is great for anyone new to Siemens products/technology, looking to upgrade or expand on their knowledge. This subscription was created for flexibility with providing modular type training anywhere from 20mins to less than 1 hour in length. You can start and stop anytime you like. So this works around customers schedules. The subscriptions are per person, non-transferrable for a personal type development path in learning with completion certificates achieved per completed module. There are a variety of resources with expert talks and community chats that are helpful too. Customers have enjoyed its flexibility to use whenever works for them. SITRAIN Access is known to compliment the individuals learning experience, but does not replace the thorough knowledge from our hands-on training received from one of our In Person or Virtual courses.

Objectives

SITRAIN access is learning in the digital age. It offers individualized ways to build your knowledge, along with access to exclusive digital training courses. Improve your skills with a variety of learning methods, including group and self-learning.

Target Group

- Decision maker, Sales personnel, Planner
- Programmers, Commissioning engineers, Engineering personnel
- Maintenance personnel
- Operators

Content

- Self-paced-learning modules: With a SITRAIN access subscription, you will receive an account for one year. With this account, you have access to all self-paced-learning modules (WBTs, videos, etc.) for various industry topics. A current overview of the available learning units can be found at: [SITRAIN access](#)
- Tests: Successful learning is an important part of SITRAIN access. To ensure this, checkpoints and test are an integral part of each learning module.
- Exercises with Virtual Exercise Lab: VE Lab is a cloud-based environment with pre-installed software (TIA Portal etc.) In your first SITRAIN access subscription two (2) hours for VE Lab are included.
- Expert Talks: In regular webinars, you will receive first-hand information from our experts on Siemens Industry products.
- Management Account: A management account is possible if at least five (5) subscriptions are purchased. This account enables managers to have an overview of their employees' training activities and to assign courses to them.

Prerequisites

To use SITRAIN access:

- A personal email address per account is mandatory.
- An internet connection is required. The use of Chrome Internet browser is recommended.

Note
