SIEMENS

Efficient Working with Team Engineering in TIA Portal / TIA Portal?????? (A7825)

Objectives

In order to improve the efficiency of project commissioning, TIA Portal provides a solution for commissioning and development by using Team engineering configuration. In this course, you will learn how to work effectively as a team in TIA Portal and optimally distribute the tasks. You will be able to efficiently work together to develop and commission a project in the team. You will be familiar with the commissioning advantages of distributed systems.

Target Group

Commissioning Engineers, Configuration Engineers, Service Engineers, Maintenance Engineers

Content

- Modularization of the user program through software units, for example, according to functions and working groups
- Creation of UNITs and working with them in TIA Portal
- Setting up a project server for multiuser accesses
- Management of projects on the project server
- Starting and working with multiuser sessions
- Starting and working with exclusive sessions
- Convenient commissioning in the team through Multiuser Commissioning, working with asynchronous/synchronous commissioning
- User management in TIA Portal through User Management Component (UMC)

Prerequisites

Completion of course A7811 or A7816

Type

Face-to-face training

Duration

2 days

Language

zh

Fee

3,600 CNY
