

## Online-Training - Pressure Technology - Basics (SC-PI-P)

---

### Ziele

---

Participants will get basic knowledge on pressure measurement. The attendees will acquire knowledge about of the different types of pressure, how to find the suitable customer's solution using the catalog.

### Zielgruppe

---

- Sales personnel
- Users in the field of process instrumentation
- Configuring engineers

### Inhalte

---

- Basics pressure measurement
- The Siemens product portfolio SITRANS P and their technical specifications
- SITRANS P320 / P420 Measuring cells
- Ordering example

### Teilnahmevoraussetzung

---

- Basic knowledge of process instrumentation technology
- General knowledge of electrical engineering

### Typ

---

Online-Training

### Dauer

---

6 Stunden
