

Online-Training - Ethernet Grundlagen in industriellen Netzwerken (IK-ETHBAS)

Short Description

The Online-Training Industrial Ethernet Fundamentals provides a broad overview in network technology and mechanisms which are the foundation of today's digital communication. Ever heard of the OSI reference model? This course will give you the insight and takes you on a tour through all seven layers.

Objectives

Upon completion the participants will gain a foundation knowledge of networking and its applications in industrial environments and will be prepared for the certification trainings of the Siemens Industrial Networks Education program.

Target Group

- Decision makers
- Planners
- Sales personnel
- Configuring engineers
- Commissioning engineers
- Engineering personnel
- Project engineers
- Maintenance personnel
- Service personnel
- Industry: COOs
- IT: CIOs, network planner and administrators

Content

- Introduction to Industrial Ethernet
- Layer 1 – Physical Layer
- Layer 2 – Data Link Layer
- Layer 3 – Network Layer
- Layer 4–7

Prerequisites

To prepare for the training, please work through the WBT [Data communication with Industrial Ethernet](#).

Note

This training is recommended before attending the Siemens Industrial Networks Certification trainings. Functional Microphones (Headset) and Webcam

Type

Online-Training

Duration

2 days
