

Statische Wägetechnik (SC-WT-STAE)

Objectives

Participants get advanced knowledge on static weighing technology. The main focus is on the electronics modules SIWAREX U, CS, WP231, WP321 and WP521/522 ST. Calibration software SIWATOOL as well as integration into SIMATIC automation system with TIA Portal is an important part of the course.

Target Group

- Technical Support
- Maintenance personnel
- Employees planning & designing scales
- Operators

Content

- Combined hands-on and theory training for static weighing technology
- Short overview on Siemens Weighing Technology
 - General information on electronic scales
 - SIWAREX load cells and accessories
 - SIWAREX electronics U, CS, WP231, WT231, WP321 and WP521/522 ST
 - Calibration of a scale with HMI, SIWATOOL (V4, V7) and TIA Portal
 - Troubleshooting
 - Integration into SIMATIC

Prerequisites

- Basic knowledge in Weighing Technology
- Experience with scales handling is beneficial

Type

Face-to-face training

Duration

3 days

Language
