

Wägetechnik für dosierende Waagen (SC-WT-DOSE)

Objectives

Participants learn how to implement and operate a dosing scale system with SIWAREX FTA and SIWAREX WP251. The training also conveys the necessary knowledge for preventive maintenance and service of a dosing scale system. You will be able to integrate a scale in a SIMATIC environment and reduce efforts during planning, as well as reduce the downtime in case of any disturbance.

Target Group

- Technical Support
- Maintenance personnel
- Employees planning & designing scales
- Operators

Content

Combined hands-on and theory training for dosing scales

- Short overview of Siemens Weighing Technology
- Basics for dosing scale systems
- Setup and dosing function of a dosing scale system with SIWAREX FTA, SIWAREX WP251 and SIWAREX WP351
- Calibration of a dosing scale system with HMI, SIWATOOL (V4, V7), TIA Portal and WebServer
- Integration into SIMATIC with TIA Portal
- Troubleshooting

Prerequisites

- Basic knowledge in Weighing Technology
- Experience with dosing scales handling is beneficial

Type

Face-to-face training

Duration

3 days
