

## Wägetechnik für dosierende Waagen (SC-WT-DOSE)

---

### Objectives

---

Participants learn how to implement and operate a dosing scale system with SIWAREX FTA and SIWAREX WP251. The training also conveys the necessary knowledge for preventive maintenance and service of a dosing scale system. You will be able to integrate a scale in a SIMATIC environment and reduce efforts during planning, as well as reduce the downtime in case of any disturbance.

### Target Group

---

- Technical Support
- Maintenance personnel
- Employees planning & designing scales
- Operators

### Content

---

- Combined hands-on and theory training for dosing scales
- Short overview on Siemens Weighing Technology
  - Basics for dosing scale systems
  - Design and structure of a dosing scale system with SIWAREX FTA and SIWAREX WP251
  - Calibration of a dosing scale system with HMI, SIWATOOL (V4, V7) and TIA Portal
  - Integration into SIMATIC with TIA Portal
  - Troubleshooting

### Prerequisites

---

- Basic knowledge in Weighing Technology
- Experience with dosing scales handling is beneficial

### Type

---

Face-to-face training

### Duration

---

3 days

### Language

---
