

Weighing Technology for Dosing Scales (SC-WT-DOSE)

Objectives

Participants learn how to implement and operate a dosing scale system with SIWAREX FTA and SIWAREX WP251. The training also conveys the necessary knowledge for preventive maintenance and service of a dosing scale system. You will be able to integrate a scale in a SIMATIC environment and reduce efforts during planning, as well as reduce the downtime in case of any disturbance.

Target Group

- Technical Support
- Maintenance personnel
- Employees planning & designing scales
- Operators

Content

- Combined hands-on and theory training for dosing scales
- Short overview on Siemens Weighing Technology
 - Basics for dosing scale systems
 - Design and structure of a dosing scale system with SIWAREX FTA and SIWAREX WP251
 - Calibration of a dosing scale system with HMI, SIWATOOL (V4, V7) and TIA Portal
 - Integration into SIMATIC with TIA Portal
 - Troubleshooting

Prerequisites

- Basic knowledge in Weighing Technology
- Experience with dosing scales handling is beneficial

Type

Face-to-face training

Duration

3 days

Language

en
