

SIPROCESS UV600: Operation, maintenance, PC and SOPAS ET installation (SC-G-UV600)

Short Description

Operation of SIPROCESS UV 600
Maintenance
PC and SOPAS ET installation
Parameterization
SDD
Data backup

Target Group

project managers
project team members
service personnel
commissioning engineers
configuring engineers
operators and users

Content

- Principle of operation and technical data
- Hardware variants
- Calibration cell, gas modules
- I/O module
- Structure of User Interface
- First Setup, initial configuration
- Diagnostics
- Repair, operation and maintaining of the PC
- Parameter setting with Sopas ET (incl. installation)
- Integration SDD
- Connection
- Access level
- Live - view
- Data backup
- Software upgrade

Prerequisites

Basic knowledge in process analytics
General knowledge of electrical engineering

Note

none

Type

Face-to-face training

Duration

2 days

Language

en
