# **SIEMENS**

# SIMATIC System-Umsteigerkurs auf SIMATIC S7-1500 in TIA Portal (TIA-SYSUP)

#### **Short Description**

The Totally Integrated Automation Portal (TIA Portal) forms the work environment for integrated engineering with all automation devices – controller, HMI and drives. In this course you will learn about the major differences between SIMATIC S7-300/400 and SIMATIC S7-1500, the engineering tools SIMATIC Manager and TIA Portal, as well as STEP 7 V5.x and STEP 7 based on TIA Portal. You will learn the possibilities of the configuration and the advanced programming of a SIMATIC S7-1500 automation system with the "TIA Portal" engineering platform.

# Objectives

After attending the course, you can:

- Efficiently use the "TIA Portal" engineering platform
- Configure and program components of the SIMATIC S7-1500 automation system with the TIA Portal
- Perform a commissioning of TIA components
- You can deepen your theoretical knowledge with numerous practical exercises on a TIA system model. This consists of a SIMATIC S7-1500 automation system, ET200 distributed I/O, Touchpanel, drive, and a conveyor model.

#### **Target Group**

Programmers Commissioning engineers Engineering personnel Service personnel

#### Content

Engineering tools TIA Portal components: SIMATIC STEP 7 and SIMATIC WinCC Introduction of the SIMATIC S7-1500 hardware Configuration of devices and networks of the SIMATIC S7 system family using SIMATIC S7-1500 as an example Working with the PLC Tag Table in TIA Portal Program blocks and editor Advanced programming possibilities of a SIMATIC S7-1500 Troubleshooting with TIA Portal tools and the SIMATIC S7-1500 CPU display Presentation of the SIMATIC WinCC operator control and monitoring system Migration of a SIMATIC STEP 7 V 5.x project to SIMATIC S7-1500 Presentation of the SIMATIC S7-300/400 program to the SIMATIC S7-1500 Presentation of the 'Startdrive' engineering tool with interfacing to a SIMATIC S120 drive Deeper understanding of contents through practical exercises on the SIMATIC S7-1500 system model

### Prerequisites

SIMATIC S7 knowledge according to ST-PRO1 and practical experience in using the knowledge You can use the available online entry test to ensure that the selected course matches your area of expertise.

Online Assessment Test

## Note

In this course you will work with SIMATIC S7-1500 and software SIMATIC STEP 7 based on TIA Portal.
