

Valve Positioner Technology - Basics (Online Training) (SC-PI-VP)

Objectives

Participants will get basic knowledge on electro-pneumatic positioners. The attendees will acquire knowledge about how the functionality and how to find the suitable customer's solution using the catalog.

Target Group

- Sales personnel
- Users in the field of process instrumentation
- Configuring engineers

Content

- Basic theory for the technology electropneumatic valve positioner
 - Basics electro-pneumatic positioner.
 - The Siemens product portfolio SIPART PS and their technical specifications
 - Ordering example

Prerequisites

- Basic knowledge of process instrumentation technology
- General knowledge of electrical engineering

Type

Online-Training

Duration

6 hours

Language
