

Online-Training - Explosion protection for Marketing and Sales (Only for Siemens employees!) (SC-S-EXMA)

Short Description

Online-Training:

The requirements of the European directives on use in potentially explosive atmospheres are the main topics of the training. Examples are used to describe in a practical way what marketing and sales need to consider when dealing with customers who want to use devices in potentially explosive areas.

Objectives

This training provides special knowledge for dealing with customers who operate equipment in hazardous areas.

Target Group

The course is aimed at participants working in marketing and sales.
