

SIRIUS ACT with PROFINET - focus on commissioning in the TIA Portal (WT-LVACTPN)

Short Description

PROFINET on the button - Convenient integration of commanding and signaling devices into digital automation environments. The WBT imparts deeper knowledge on the topic of commissioning the SIRIUS ACT PROFINET system in the TIA Portal

This web-based training begins with an introduction to the SIRIUS ACT Profinet portfolio and its installation. Participants are given an overview of the various components and their possible applications. This is followed by a step-by-step guide to commissioning the Profinet system in the TIA Portal. This clearly demonstrates how easily and efficiently SIRIUS ACT Profinet can be integrated into the TIA Portal. Clear instructions teach participants how to configure the system and commission it quickly and safely.
