

## Siemens Certified Automation Engineer for SIMATIC Safety – Configuration and Programming (CPT-TIASAF)

---

### Short Description

---

In this course you can proof your knowledge about configuring and programming fail-safe controllers and receive certification as an Automation Engineer for SIMATIC Safety – Configuration and Programming.

In the beginning the most important topics from the course [TIA-SAFETY](#) are refreshed in a short theoretical part. Afterwards an examination with theoretical questions takes place.

### Target Group

---

- Programmers
- Commissioning engineers
- Engineering personnel

### Content

---

- Operating principle of fail-safe controllers SIMATIC S7
- Safety concept of Safety Integrated
- Safety mechanisms of the safety program
- Programming of safety functions
- Operating principle of PROFIsafe
- Configuration of fail-safe communication

### Prerequisites

---

Knowledge according to the course [TIA-SAFETY](#) is required.

### Note

---

[Also available as online-training](#)

### Type

---

Face-to-face training

### Duration

---

1 day

### Language

---

da

### Fee

---

4,995 DKK
