

Protection systems in low-voltage power distribution (WT-LVAPS)

Short Description

The WBT imparts deeper knowledge about protection systems in low-voltage power distribution and provides some general information.

Objectives

The learned contents of this WBT serve as a basis for further WBTs and trainings.

Target Group

- Sales employees
- Project planners
- Operating & service personnel

Content

- Introduction to network protection
- Causes: Overload and short circuit
- Tasks: Overload and short-circuit protection
- Selectivity

Note

It will not be possible to cancel WBTs once they are ordered.

Please use Google Chrome for optimum usage.

Type

E-Learning

Duration

30 minutes
