

SINAMICS V90 (DR-V90)

Objectives

This course is designed for Engineers and maintenance technicians who are not exposed to digitally controlled AC drive technology and further needs to work with Siemens make AC Drive SINAMICS V90.

Target Group

Users, Commissioning / Sales/ Service /Maintenance Engineers of Instrumentation / Electrical / Electronics Engineering.

Content

VFD working principle and getting familiar with the drive

Block diagram of AC Drive

Specifications, range, features and hardware details of SINAMICS V90

Block diagram of the product, terminal details

Understanding of Operator panel functions, key operation

Status LEDs on the drive

Parameter structure and quick commissioning procedure

Different control modes - speed control, Torque control, Position control

Basics of Positioning

Commissioning and monitoring the drive using software Sinamics V Assistant

Controlling the drive with different control modes

Internal Speed control, Internal position control (IPos)

Pulse train input (PTI) -Using S7 1200 PLC

Different positioning tasks, Using Motion control library in S7 1200 PLC

Electronic gear ratio, Real time tuning

Application examples, Fault diagnostics

Hands-on practice

Prerequisites

Engineers in Electrical / Electronics Engineering

Туре

Face-to-face training

Duration

3 days

Language

en

Fee

16,500 INR
