

Corso avanzato LOGO! (SIE-LG!ADV)

Short Description

Starting from the notions acquired in the SIE-LG!BA course, this second course dedicated to the LOGO! will allow you to acquire the skills necessary to use the LOGO! Soft Comfort environment in its medium complexity functions. You will face the organization in the development of a software. You will also be provided with the necessary skills to use the available tools, as well as hints on communication between multiple LOGO! and the use of LOGO! Web Editor. You will then get to know the main system diagnostic tools.

Objectives

After attending the course you will be able to:

- Organize a schedule
- Create variable logs
- Use the tools available for the LOGO!
- Establish simple communication between two LOGO!
- Work with the integrated web server (standard and custom)

Target Group

Electrical installers
Maintenance personnel
