SIEMENS

FREE OF CHARGE - Virtual Classroom Training - How it works (VT-EXT)

Content

Did you ever want to make the experience of a virtual classroom training?
Don’t hesitate to join us.
How it works?
First a short introduction, followed by your first steps into the world of virtual classroom training.
We guide you safely through the virtual space, where you participate into your training. Act in your familiar surroundings like you were personally at our training center and all your questions will be answered instantly.
Convince yourself of the possibilities and advantages of virtual training like live video feeds including the remote access to the training equipment! Our new virtual training sessions transfer all the practical knowledge without the time and effort of travel.
Date on request
