

SICAM 8 (SICAM A8000 & SICAM S8000) - Complete for Engineers (DEVICE MANAGER) - Virtual Training (RTU-COMDM)

Objectives

The participants will be able to configure automation systems of the SICAM 8 (SICAM A8000 & SICAM S8000) product family, using the engineering tool "SICAM Device Manager" including several communication protocols and control tasks (CFC). They will gain consolidated knowledge with theoretical foundations and practical exercises.

Target Group

Engineers who want to create solutions with the SICAM 8 (SICAM A8000 & SICAM S8000) automation system with the engineering tool "SICAM Device Manager".

Content

2 subsequent modules grant the optimal combination of theory and practical applications:

- [SICAM 8 \(SICAM A8000 & SICAM S8000\) - Basic & Engineering \(DEVICE MANAGER\) - \(Virtual Training\) \(3.5 days\)](#)
- [SICAM 8 \(SICAM A8000 & SICAM S8000\) - Logic Editor CFC \(DEVICE MANAGER\) - \(Virtual Training\) \(1.5 days\)](#)

For details please click on the links above.

Prerequisites

Knowledge of the most important terms of telecontrol technology as trained in the [Telecontrol and Automation - Fundamentals \(TOOLBOX II & DEVICE MANAGER\) - \(Virtual Training\)](#)

Note

This training can be booked as [FACE-TO-FACE Training](#) too.
