

## COMOS Training Platform (COM-PLAT)

---

### Objectives

---

The COMOS Platform training is aimed at planning engineers, drafters or future COMOS administrators. Students learn about the philosophy of COMOS, how to handle the Navigator and how to create structures and engineering objects. They are also introduced to tools such as queries and bulk processing as well as to interfaces and working layers.

### Target Group

---

Planners,  
Drafters  
Engineers,  
Project team members

### Content

---

COMOS projects and user interface  
Navigator and tabs  
COMOS objects  
Basics for queries  
Queries and bulk processing  
Documents and lists  
Interfaces  
Working layers

### Prerequisites

---

Windows user knowledge

### Type

---

Face-to-face training

### Duration

---

2 days

### Language

---

sv

### Fee

---

16,100 SEK
