

COMOS Training Integration Layer (PCS 7) (COM-PCS7)

Objectives

During the COMOS Integration Layer (PCS 7) training, students gain an insight into process-oriented and object-oriented data exchange between COMOS and the SIMATIC PCS 7 that allows efficient integration of planning and automation processes. Using a training project as an example, students learn about a typical workflow, especially preparation and administration within the COMOS software.

Target Group

Experienced COMOS users, starting with COMOS administration

Content

COMOS

Prerequisites

COMOS Training Instrumentation & Control

Type

Face-to-face training

Duration

2 days
