

COMOS Training Integration Layer (PCS 7) (COM-PCS7)

Objectives

During the COMOS Integration Layer (PCS 7) training, students gain an insight into process-oriented and object-oriented data exchange between COMOS and the SIMATIC PCS 7 that allows efficient integration of planning and automation processes. Using a training project as an example, students learn about a typical workflow, especially preparation and administration within the COMOS software.

especially preparation and authinistration within the COMOS software.
Target Group
Experienced COMOS users, starting with COMOS administration
Content
COMOS
Prerequisites
COMOS Training Instrumentation & Control
