## SIMATIC S7-1500 TIA Portal Program 1 / SIMATIC S7-1500 TIA Portal Program 1 (TIA-PRO1)

---

### Objectives

---

The Totally Integrated Automation Portal (TIA Portal) forms the work environment for integrated engineering with SIMATIC STEP 7 and SIMATIC WinCC.

In this first part of the SIMATIC TIA Portal programming training, we teach you the handling of the TIA Portal, basic knowledge about the structure of the SIMATIC S7 automation system, configuration and parameterization of hardware, and the basics of standard PLC programming. You also receive an overview of HMI, PROFINET IO, and connecting drives.

After attending the course, you can do the following:

- Understand the fundamentals of interaction of the TIA components
- Solve simple programming tasks using elementary STEP 7 instructions
- Reliably operate the "TIA Portal" engineering platform
- Program simple plant functions with basic STEP 7 instructions in the ladder diagram (LAD) or function block diagram (FBD)
- Perform simple commissioning of TIA components

You can deepen your theoretical knowledge with numerous practical exercises on a TIA system model. This consists of a SIMATIC S7-1500 automation system, ET200SP distributed I/O, Touchpanel TP700, drive SINAMICS G120 and a belt model.

### Target Group

---

Programmers  
Commissioning engineers  
Engineering personnel

### Content

---

System overview TIA Portal, SIMATIC WinCC (SCADA)  
Overview and significant performance characteristics of the SIMATIC S7 system family  
The components of the TIA Portal: STEP 7, WinCC, communication  
Program execution in automation systems  
STEP 7 block types and program structuring  
Binary and digital operations in the function block diagram (FBD)  
Programming of parameterizable blocks  
Data management with data blocks  
Programming organizational blocks  
Test tools for system information, troubleshooting, and diagnostics  
Hardware configuration and parameterization of the SIMATIC S7 modules, a PROFINET IO system (ET-200), a Touch Panel, and a drive  
Program documentation and saving  
Deeper understanding of contents through practical exercises on the SIMATIC S7-1500 system model

### Prerequisites

---

Basic knowledge of automation technology

### Type

---

Face-to-face training

### Duration

---

5 days

### Language

---

tr

### Fee

---

3,325 TRY  
( price without 18% VAT )
