

## "Online Training" SIMATIC programming with S7-GRAPH in the TIA Portal (TIA-GRAPH)

### Short Description

You can implement your theoretical knowledge in a direct, hands-on way on a TIA system model. This consists of a SIMATIC S7-1500 automation system, ET200SP distributed I/O, Touchpanel TP700, drive SINAMICS G120 and a belt model.

[Also available as Face-To-Face Training](#)

### Objectives

The Totally Integrated Automation Portal (TIA Portal) provides the working environment for end-to-end engineering with SIMATIC STEP 7 and SIMATIC WinCC. Select this course if you want to program SIMATIC S7 using sequential controls with S7-GRAPH.

Using simple examples, we will show you the advantages of the SIMATIC S7-GRAPH.

The course aims to inform participants about the complete language and performance scope of the sequential controls with SIMATIC S7-GRAPH development environment.

During the training course, you will create, commission, and test your own sequential controls programs. After the course, you will be able to reduce the amount of time spent on creating and maintaining programs through the use of SIMATIC S7-GRAPH.

### Target Group

Programmers  
Commissioning engineers  
Engineering personnel  
Maintenance personnel  
Service personnel

### Content

Design, structure and methods of representation of sequencers with SIMATIC S7-GRAPH  
Planning and configuring sequencers  
Programming, documenting and starting up sequence blocks  
Programming of interlocks and monitoring  
Use of event-driven actions  
Properties of simultaneous and alternative branches  
Integrating manual mode  
Test functions and diagnostics facilities  
Deeper understanding of contents through practical exercises on SIMATIC S7-1500 system model

### Prerequisites

Knowledge of SIMATIC STEP 7 based on TIA Portal equivalent to the TIA-SYSUP, TIA-SERV1 or TIA-PRO1 course.

For this "online training" you will need a computer with Windows 7 or better Windows 10 and a stable internet connection. We recommend a data transfer rate of 50 Mbit/s. You will require Google Chrome as Internet browser to access a virtual whiteboard and to use our TIA cloud solution. The platform for this training is Microsoft Teams. We recommend installing the Microsoft Teams app for the best possible use of all functions

### Note

In this course you will work with the SIMATIC STEP 7 software based on TIA Portal.

### Type

Online-Training

### Duration

2 days

### Language

en

### Fee

1,190 GBP
