

Webinars (BT-WEBINAR)

Short Description

The PX Update Webinar is aimed at engineers who have been trained on Building Technologies' Designo PX product (via either PXB & PXA, or PXE) but whose training was carried out some time ago, The Webinar covers the latest improvements and additions to the PX range and associated tools and will provide a more convenient way for partners to keep their engineers up to date with PX.

Note

An assessment paper to be completed upon completion of the Webinar.
