

SINUMERIK 840D sl Commissioning (NC-84SL-COM)

Kort beskrivelse

This course teaches you how to configure the SINUMERIK 840D sl and it provides you with the knowledge required to create, test and start up special system configurations.

Målsætninger

This course teaches you how to configure the SINUMERIK 840D sl and it provides you with the knowledge required to create, test and start up special system configurations.

You practice startup and service in exercises on training devices.

On completion of the course, you will have mastered startup of the SINUMERIK 840D sl control system with a SINAMICS S120. Thanks to the knowledge gained of the different functions of the control, you will be able to pinpoint and correct faults. In this way, you will contribute toward minimizing standstill times and maximizing the productivity of your machine.

NC-NCAN course participants are advised to attend this course only after a period of gaining practical experience of 2 to 4 months.

Målgruppe

Commissioning engineers
Engineering personnel
Service personnel

Indhold

Overview and components of the SINUMERIK 840D sl
Introduction to operation
Overview of the SINUMERIK 840D sl functions
Data backup and restart
Analysis of the fault displays and diagnostics displays
Machine data for the channel configuration, axis configuration and spindle configuration
Drive configuration and fundamentals of optimization
Adaptation of the control functions to the machine with machine data and interface signals
Startup of compensations and axis couplings
PLC basic program
Structure of the user program
NC/PLC interface structure, interface signals and user alarms
Basics Tool management
Settings for SINUMERIK Operate
Introduction to synchronized actions
Practical startup and service training on training devices

Deltagerkrav

Basic knowledge according to the course NC-NCAN or NC-BASIC, knowledge of STEP 7 or TIA Portal
Relevant education, knowledge and experience to enable him or her to analyze risks and to avoid hazards which electricity could create.

Bemærk

Included in the course price: Free access to the digital learning platform [SITRAIN access](#) – starting one week before the start of the course until two weeks after the end of the course.

With the Learning Membership, you can deepen or repeat the content of this Learning Event as well as continue your education on other interesting topics.
