

SINAMICS G180 - Parameterization and Service (DR-G180)

Kort beskrivelse

In this course you learn the SINAMICS G180 inverter system.

Målsætninger

In this course you learn the basics of structure, functionality, commissioning, parameterization, diagnostics, error messages and commissioning of the inverter system SINAMICS G180 inverter system. This training course replaces the previous DR-G18-PM and DR-G18-DG courses.

Målgruppe

Commissioning engineers
Configuring engineers
End customer
Service personnel
Maintenance personnel

Indhold

Introduction to converter technology
Application examples for SINAMICS G180
Theory: Power unit and signal flow diagram
Fault diagnosis by means of event memory and oscilloscope function
Maintenance matrix
Practical exercises

Deltagerkrav

General knowledge about drive technology
