Happy New Year !!

We are delighted to share our **Training Calendar for the quarter January – March 2026** with you. It is always a pleasure to connect with you and present new opportunities for growth and learning.

We would like to extend our sincere thanks to our esteemed customers for the overwhelming response to the various initiatives we have launched. Your continued engagement and trust truly motivate us to keep raising the bar.

We are especially encouraged by the strong participation in the following areas:

- **Cybersecurity Training** – Strengthening digital safety and resilience
- **Digitalization Training** – Equipping professionals with future-ready digital skills
- **SITRAIN Access – Digital Training Platform** – An ever-expanding hub for flexible learning
- **Maintenance-Focused Trainings** – Driving operational excellence and efficiency

It gives us immense pride to see the success of students trained through our flagship **SMSCP (Siemens Mechatronic Systems Certification Program)**. Having successful results of this program, many educational institutes are getting associated with Siemens to become partner schools. This will be a game changer in the initiatives of government of India for the skills development.

As I step into the role as the Head of SITRAIN, the team remains committed to the strong foundation already in place while bringing renewed focus to innovation and excellence in learning. Looking ahead, we are excited to introduce **several new programs with a strong focus on digitalization**. Our **SITRAIN Access** digital training platform — currently offering over **450 programs** — will continue to expand in the coming year with many more valuable additions.

Additionally, we offer **attractive group discounts** for organizations enrolling multiple participants. Please feel free to contact us to learn more.

Stay tuned for more updates — we look forward to continuing this journey of learning and transformation together.

We look forward for your feedback & suggestions on the learning needs in the digital industry products.

Warm regards,

Atul Rodge

Head – SITRAIN Digital Industry Academy
