SITRAIN courses for the Digital Enterprise

SITRAIN – Digital Industry Academy

[siemens.com/sitrain-digitalization](https://www.siemens.com/sitrain-digitalization)

Start your journey on the path to Industrie 4.0

Digitalization is already taking hold in many industries, it's vital to stay fully up-to-date and turn new opportunities into new successes.

„The course 'Virtual commissioning with machines' brought the future of automation closer to me than ever before!

The complete panoramic view of the topic and above all the practical exercises on the theory conveyed provide security during application and later during use in practice.”

Gerhard Switalski,
DI-VIRTCOM course participant

With courses from SITRAIN – Digital Industry Academy, tailored to your individual training needs.

Trainings for the digital transformation

A faster time-to-market and an ability to respond more flexibly to changes are now more crucial than ever. With SITRAIN you'll learn how to master this complexity and turn it into a benefit for your business. Step by step, the SITRAIN training courses will support your digital transformation.

In the SITRAIN courses you'll learn how to cut the commissioning of real machines by up to 70 percent, minimize your costs and risks, avoid unplanned machine downtimes, and identify mechanical problems and software errors at an early stage.

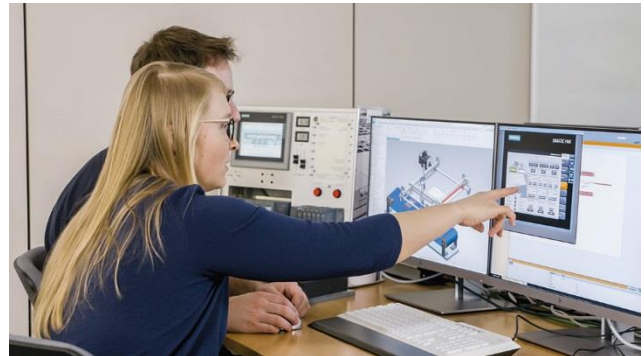

Get ready for the working environment of the 21st Century

A sophisticated range of courses with modules that build on each other will quickly take you to a new level of knowledge. Enjoy the support of certified trainers with practical experience as you build up your individual knowledge.

Digital Enterprise courses for the discrete industry

Discover the path to your own Digital Twin. Gain the technical and digital expertise you need from the courses in the three modules on "Totally Integrated Automation (TIA) in the Digital Enterprise."

- **Virtual commissioning**
SITRAIN course: Virtual Commissioning for Machines (DI-VIRTCOM)
- **Automatic code generation**
SITRAIN course: Automatic execution of engineering tasks (DI-AUTOEN)
- **Basics and advanced courses**
Further courses on Openness, SIMIT, OPC UA and SiVArc

Digital Enterprise courses: Knowledge for the process industry

SITRAIN experts have a wealth of digitalization and industry know-how to enable them to advise, support, and train customers on their path to the digital enterprise.

- **Virtual commissioning**
SITRAIN course: SIMATIC PCS 7 Integrated Engineering and Simulation
- **Automatic code generation**
SITRAIN course: SIMATIC PCS 7 Plant Automation Accelerator Workshop for beginners
- **Basic and advanced courses**
Further courses on Industrial Security and SIMIT
