

NEW ONLINE LEARNING MODULES

SITRAIN UK –Introduces Blended Learning Solutions at no additional cost.

As part of our ongoing improvement to our learning services we have added a new feature to some of our main tutor based course modules. When you register to one of these in future you will also be given access to some related free of charge web learning content. The number of modules with each course will vary depending on course topic. They will be available to add value to your learning experience as either pre or post learning in your own time at your own pace.

The modules will be accessible via your 'My Training' portal on the SITRAIN website so make sure you have registered. From time to time we will be adding additional modules to further courses and updating existing web modules so they provide an up to date learning experience.
