

## SINAMICS S120 - Parameterizing Safety Integrated (DR-S12-SAF)

### Présentation

In this course you learn the handling of drive based Safety Functions. You know their applications and you can parameterize them using Startdrive in the TIA Portal.

### Objectifs

In this course you learn the handling of drive based Safety Functions. You know applications of the different functions and you can parameterize them using Startdrive in the TIA Portal. Therefore you use the benefits in comparison with a conventional safety technology, like reduced cabling or faster commissioning of identical machines. In the course you got through all steps for the implementation of the safety functions until the final acceptance report.

### Groupes cibles

Programmer  
Commissioning personnel, Engineering  
Service personnel  
Maintenance personnel

### Programme / Contenu

Fundamentals, standards and regulations of Machine Safety  
Procedure of risk assessment  
Performance Level (PL) and Safety Integrity Level (SIL)  
Safety Evaluation Tool (SET) for the evaluation of PL and SIL  
Parameterization using Startdrive in the TIA Portal:  
▪ SINAMICS S120 Safety Integrated Basic Functions and Extended Functions  
▪ Control of the drive integrated Safety Functions via SIMATIC F-CPU and PROFIsafe  
Effect of the settings of the closed-loop control and the kinetic energy of an axis on the safety functions  
Execution of the acceptance test and preparation of the acceptance report  
Procedures for the handling of spare parts and at retrofit measures  
Practical exercises on training kits with SINAMICS S120 and SIMATIC F-CPU

### Prérequis

Knowledge of SINAMICS S120 according to the course DR-S12-PM (formerly DR-SNS-SI) or DR-S12-PMT.  
For the topic PROFIsafe knowledge of SIMATIC S7 is useful.

### Remarque

**Included in the course price:** Free access to the digital learning platform [SITRAIN access](#) – starting one week before the start of the course until two weeks after the end of the course. Here you will find web-based trainings on [SINAMICS Converters](#) as well as other topics such as [Industrial Automation Systems SIMATIC](#) and many more. With the Learning Membership, you can deepen or repeat the content of this Learning Event as well as continue your education on other interesting topics.
